One of my Favorite Artists 💖👍👩🏻👉

I'm going to share something really cool about the artist, Ariana Grande. She is my favorite singer and actress. 👩🏻 Her audience is mainly composed of teens. Many people may agree with me, but others might not. I think she sings like Mariah Carey. I absolutely adore both of their voices, but I love Ariana much more than just her voice. I don't know Ariana Grande very well, but she is so cool and I would not mind having her as a role model. 👩🏻

Now, let's talk about her music. Many people thought her hit song, *The Way*, was by Mariah Carey. That tells you that she is quite talented. Well, preteens like me believe she is the best, because she doesn't curse and she's not one of those celebrities who is always on the news doing crazy things. She is definitely a fun person. I also noticed that her song *Problem*, with artist Iggy Azalea, was an overnight hit.

Her acting is pretty good unless that's her personality in real life. I love her shows, *Victorious* and *Sam & Cat*. I was so sad when the network took them off the air. Her character, *Cat*, was so funny, sweet, and cute. Just in case you did not watch the shows, *Victorious* and *I-Carly*, they were both awesome shows that were on the Nickelodeon Channel. After *Victorious* ended, the character *Cat* from *Victorious* and *Sam* from *I-Carly* created another show named *Sam and Cat*, which was a terrific show as well.

Now, it is time to get into her style. 💖👍 The way that Ariana dresses and styles her hair is fabulous. I constantly ask the hairstylist to style my hair similar to the way she has it, unfortunately they can never style it the same way. I loved her half up half down look with curls at the bottom. It was super cute. And I started wearing hair bows, because of her. She went through a phase when she wore bows too.

Another aspect I love about Ariana is her girly look and those dresses she has are dazzling. I dress like her most of the time. Anyways, this focused on my love for Ariana Grande. I wish that one day I could meet her but sadly she never tours in New York City.

☁️ Bye!
